● Established in 1990 and a family-run business, Mandarin Stone are UK market leaders in the natural stone industry. Over the years they have carefully sourced an extensive range of stone floor and wall tiles which offer endless design concepts for residential and commercial interiors.

Stones, imported from over 20 different countries, include limestone, marble, travertine, slate, basalt, sandstone, granite and terracotta, are available in a variety of sizes and finishes. Exterior cobbles and flags, stone basins and shower trays complement the main ranges, together with huge stone slabs which can be made into work-tops, vanity tops, stair treads and risers, etc.

Virtually the entire stone range is stocked to high levels in warehousing in

Monmouth, which enables customers to have delivery of their stone within short time-frames. Customer service is of paramount importance and integrated within this is an experienced and knowledgeable technical team. Advice can be given on issues such as creating a wet room, using the correct sealants and laying over underfloor heating or problematic substrates. All ancillary products can be purchased and delivered with the stone.

Mandarin Stone showrooms are located in Bath, Cardiff, Cheltenham, Exeter and Monmouth, and Marlow in Buckinghamshire is due to open in April. The newest showroom is in Bristol, on Regent Street in fashionable Clifton Village. This

boutique-style showroom is said to be the best Mandarin Stone showroom yet. Spread over two levels, it displays the very latest ranges and offers the discerning homeowner endless inspiration and choice, whatever their style or budget.
