

CELEBRATING

35 YEARS

OF SURFACE DESIGN

MANDARIN STONE

LOOKBOOK | EDITION 8

2024 marks 35 years of Mandarin Stone. When I was asked to help sell some slate floor tiles in 1989 I would never have dreamt it would become what it is today.

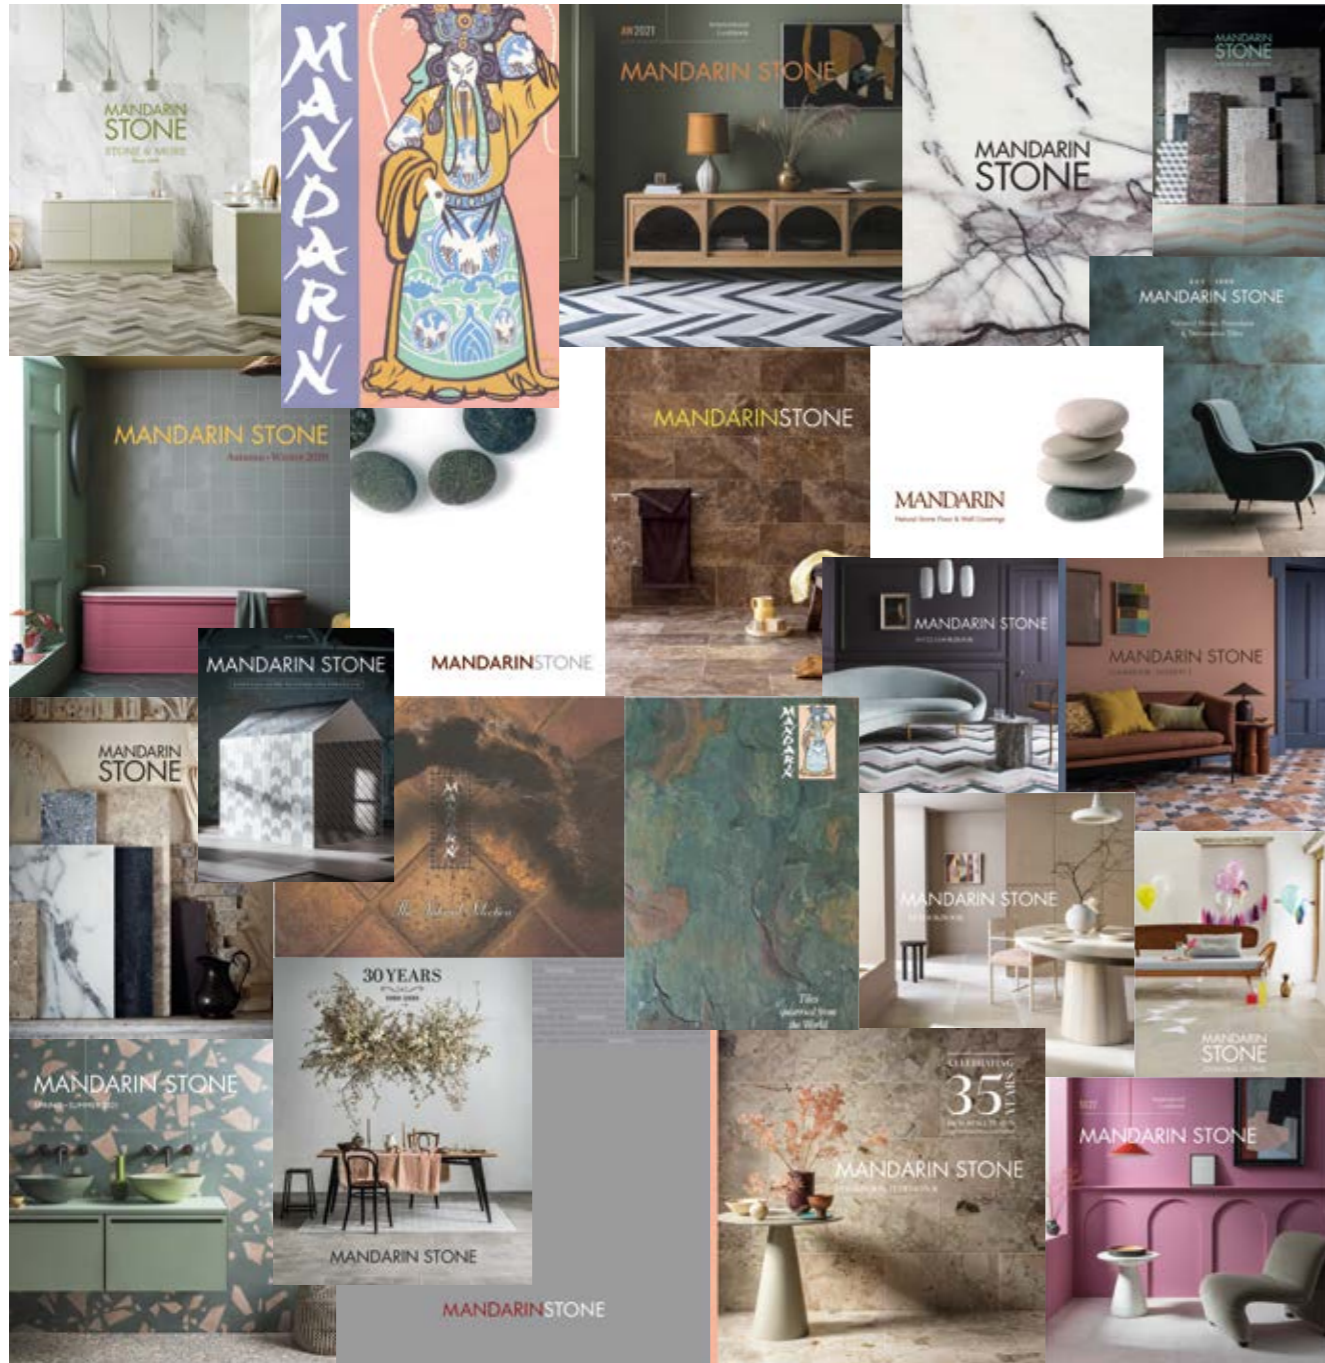

I feel thoroughly proud of our 15 inspirational showrooms, our reputation for offering the most innovative and exciting surface designs in the UK and of course, the 220 employees that make it all possible.

As we've evolved, expanding our selection from natural stone to porcelain and decorative tiles, our core values of quality and craftsmanship remain. We still travel to Europe and beyond to source tiles, launch new ranges twice a year – including new modern botanicals and outdoor stone for spring – and pride ourselves on offering customers expert advice. Join us in celebrating our birthday year and read on to discover this season's collection highlights.

35 Years of Surface design

To celebrate 35 years of Mandarin Stone, we reveal stories and insider secrets behind our ever-evolving company

1 The name Mandarin Stone derives from the simple fact that our founder loves birds and in particular the magnificent and colourful Mandarin duck.

2 Mandarin Stone's head office and warehousing are in Monmouth. The town in which Queen recorded Bohemian Rhapsody and Oasis recorded Wonder Wall. Monmouth was also the first town in the world to appear on Wikipedia and the family home of Rolls Royce.

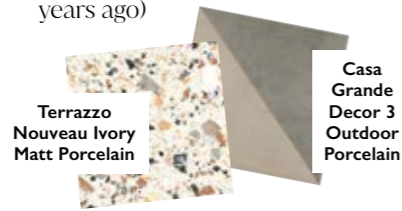

3 Mandarin Stone was founded by a lady, Alma Small, who remains very active in the business today.

4 There's nothing quite like seeing our tiles in the flesh & our 15 inspirational showrooms allow this opportunity. Since opening Bath in 1999, others followed, from Exeter in the south to Harrogate in the north.

5 The size of our warehousing has grown with our brand. Our Monmouth sites now covers an area of 15 acres, the equivalent of approximately 22 football pitches.

6 Although we are Mandarin Stone by name, over 60% of our orders are porcelain (which we only introduced 13 years ago)

7 Marble has been part of our collection since the early days and in recent years this amazing natural stone has never been more popular.

8 Mandarin Stone began in 1989, the same year that the World Wide Web was invented and the 'fall' of The Berlin Wall.

9 Our founder and owner although 71 years young, still travels the world as part of the buying team.

10 Originally deliveries were made using a Land Rover and trailer. We now have over 20 Mandarin branded vehicles of various types delivering across the UK.

11 We now deliver over 1000 pallets each week from the humble beginnings of 20.

12 Our first ever sale in 1989 was a slate called Silver Blue from South Africa. This was stocked in many sizes along with a 'hand chipped edge' 405x280mm version and retailed at under £20m².

13 *Just 19% of UK small & medium businesses are owned by women & we're one of them.*

14 All 3 of Alma's children are part of the business and many product names derive from the French towns visited during family holidays.

15 Our sourcing team love nothing more than a music quiz to pass the time on their travels. You may notice the effect of this on product names – Iggy, Zappa, Hendrix, Jagger.

16 In 2015 we had 132 employees, in 2019 this rose to 176 and today we embrace our workforce of 220 people.

17 One of our team has been with us for 30 years and a further 8 for over 20 years.

18 Our youngest member of staff is 20 and our oldest is 74 years young.

19 Whilst nowadays we take our own and other e-commerce websites for granted, setting one up in the early days was no mean feat! In 2006 we launched our first e-commerce website. We were one of the first UK tile companies to start selling tiles online and won an award from The Tile Association in 2009.

20 Over 20 full lorry loads of tiles are delivered into London alone each week.

21 We just love great marketing and merchandising our showrooms. Every customer is pleasantly surprised with our keen pricing, stock levels and delivery timescales.

22 *Years ago, a Turkish supplier labelled all of our crates with the word “lady”. Our founder Alma was the only lady business owner in the world they worked with, so this was all that was needed.*

Loxley Sand Matt Stone Effect Porcelain

25 Our tile warehouse locations have been Winkleigh in Devon, Weston-Super-Mare, Bridgend and Raglan in South Wales before our final move to Monmouth in 1996.

26 Stone remains our passion and is a key part of our collection. The advances in technology has allowed porcelain tiles to mimic natural stone surfaces and contributes to most of our sales today.

27 We give generously to over 20 charities each year from Cancer Research UK to the British Hedgehog Preservation Society.

28 Our suppliers have become our friends and some of our supplier relationships span 30 years.

29 Unusually our sales team are not driven by the incentive of commission. We believe in matching clients to products and advice based purely on suitability.

30 Our fabrication department was formed 15 years ago to complement our tile ranges and create bespoke pieces.

31 In the early days family holidays to France and Spain would include visits to supplier's quarries and warehouses.

32 *Bath was our very first showroom opened in 1999 & will forever hold a special place in our hearts.*

33 New locations for our inspirational showrooms is ongoing, together with makeovers in our existing ones.

34 A marriage proposal once took place in our Monmouth showroom. Luckily, the member of staff said yes as his wife was knelt on our Dijon Limestone. It was February 29th.

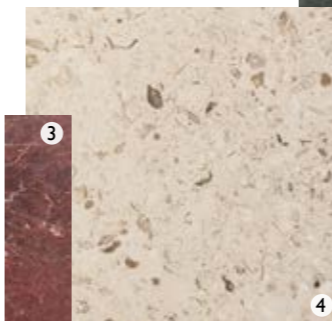

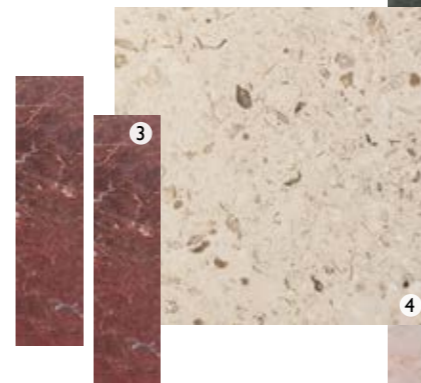

35 6,500 samples are despatched from Head Office each month to addresses in the UK and abroad.

CORE Collections

5 Stylish SCHEMES for 2024

We've compiled a few of our favourite ways to upgrade, elevate and reinvigorate your interior with tiles for walls and floors

Folio Satin Ceramic

1

BACK TO BROWN

Rich, warm and enveloping, it's not hard to see why brown is one of the key colour trends of this year. Opt for a rustic, authentic look by embracing traditional patterns in brick and chestnut shades. Or go big on texture, choosing tiles that are deliberately not uniform with slight tonal variations and gentle surface undulations.

ABOVE Bergen Rust Decor Matt Stone Effect Porcelain, Bergen Rust Matt Stone Effect Porcelain **RIGHT** Prairie Terra Decor Matt Porcelain, Prairie Terra Matt Porcelain

2

QUIET LUXURY

Sometimes less really is more, and using pale honed marble or marble-effect tiles with subtle veining is the epitome of low-key luxury. A hint of glimmering gold added using the latest porcelain technology or the occasional shot of natural rust-orange, elevates this sophisticated look further. Choose from brushed, matt, or gloss finishes, and various size formats.

LEFT Amalfi Gold Brushed Marble Effect Porcelain
ABOVE St Moritz Vein Honed Marble

3

CHEQUERBOARD

There's nothing so classic as a monochrome chequerboard floor. Inspired by the popularity of our limestone tiles, we've expanded our existing range to include various chequerboard floor tile options. The contrasting tones make for an eye-catching scheme while the antique finish adds age and depth.

Lyon Di Scacchi Tumbled Limestone

4

ECLECTIC

For a space with real soul, consider tiles with an understated aged appearance. Soft pastel shades on the wall – such as duck egg blue, lichen, and the palest pink – in a sateen sheen work well, and will cleverly bounce light around too. Pair with warm, earthy floor tiles in a contrasting geometric.

Wall Folio Satin Ceramic, Carrara Honed Marble Slab
Floor Clay Cotto Matt Porcelain Hexagon

5

MOODY HUES

Create a cocooning bathroom sanctuary with wall tiles in deep, dramatic shades. For instant impact, stick to a single colour and get inventive with layouts to add interest; try gloss or matt mini-brick tiles vertically, stacked or in a herringbone pattern and co-ordinate with a complementary lighter floor tile
